THE TOBACCO MARKETS.

In looking over the prices paid for tobacco in other Central Kentucky markets THE NEWS finds that the Paris markets rank right along with the leaders and the growers are receiving as good prices as are being paid in any of the other markets. These high prices have prevailed since the opening of the market in December, and there is every reason to believe they will continue.

All of last week and this week the three Paris houses have been crowded with tobacco, every leaf of which sold at good prices. This means that there will be placed in the pockets of the tobacco growers of Bourbon county a large sum of money, which will find its way back into the cash registers and bank accounts of the merchants of Paris. The raising of tobacco has greatly increased during the past few years, and is now one of the leading industries of Kentucky, especially so in this immediate section of the State.

Although the Paris markets are ranked as among the best in the State, some Bourbon county growers continue to sell their crops in the Lexington market. Whitsett & Jones sold a crop of 3,540 pounds at the Lexington House, Tuesday, for \$23.60 average, and George Wagoner sold 2,070 pounds at \$19.37. At the Headley House, Johnson & Tevis, of Bourbon, sold a crop of 4,165 pounds at \$18.61. At the Fayette Warehouse, Taylor & Lucas, of Bourbon county, sold 10,655 pounds at \$25.48. Taylor & Day, of Bourbon, sold 3,210 pounds at \$20.39; Carl Long, of Bourbon, sold 3,495 pounds at \$22.95, and Taylor & Carpenter, of Bourbon, sold 11,900 pounds at \$22.59.

"ANDY" GOREY SELLS TRANSVAAL FOR \$10,000.

A private message to THE NEWS Wednesday confirmed the paragraph printed in Tuesday's issue to the effect that Mr. Andrew J. Gorey, of Latonia, formerly of Paris, had sold his good stallion, Transvaal, to an Eastern horseman for \$10,000. The purchaser was Mr. Robert J. Walden, of New York.

Transvaal is a bay stallion, twelve years old, by Commando—Imp. Royal Ross by Royal Hampton. He is the sire of thirty-eight winners who have won in the neighborhood of two hundred races and \$100,000 in earnings. King Gorin, Blackie Daw, Little Bit, Resign and Balica are some of his progeny that have won some of the classic events of the past. Transvaal was practically a gift to Mr. Gorey, as he purchased him from an agent of the late Mr. James R. Keene for a very low price. His knowledge of blood lines led him to believe he was suitable for a sire, and the fact that this young horse was in the twenty list of premier sires last year, as well as the year before, demonstrated that Mr. Gorey's judgment was correct.

BLUEGRASS PRINTERS' AND PUBLISHERS' ASSOCIATION.

The first quarterly meeting of the recently-organized Bluegrass Printers' and Publishers' Association will be held in the Phoenix Hotel, at Lexington, at eleven o'clock this (Friday) morning.

The association was formed for the purpose of acquainting its members with the best ideas in the trade and to enable them to stand together for mutual benefit. One plan of the Association, which will be worked out more fully later on, is to organize an agency to handle political advertising and such "other stuff as is usually offered country papers in plate form," for the purpose of receiving adequate payment for such material.

The high cost of news print paper will also be taken up for consideration at the meeting, and discussion of a remedy for the existing state of affairs will be participated in by the members. Notices calling the meeting have been sent out by Editor Jas. M. Allen, of the Cynthiana Democrat as president of the Association, and D. M. Hutton, as secretary.

CANDIDATES FOR ASSESSOR

THE NEWS calls attention to the announcement in this issue of the candidacy of Mr. Walter Clark, of Paris, for Assessor, with Mr. John J. Redmon, of North Middletown, as deputy. Neither needs any extended introduction to the people of Paris or Bourbon County, as both have been lifelong residents of the county and prominently identified with its public and business interests.

Mr. Clark is one of the best known men in the city or county, having been engaged in the livery and sales stable business and stock buying for years. He was one of the prime movers in the development of the live stock interests of the county, and was a leading figure in the agricultural fairs held here.

Mr. Redmon is a prominent and influential farmer, a good business man, a member of the Bourbon Fiscal Court, and a man known and respected from one end of the county to the other.

It would be hard indeed to pick two more popular men in Bourbon county, or two men with a more extensive acquaintance among the people. They will make a team hard to beat.

"Yours truly, "LEE WAINSCOTT."

CALL ON MAYOR HINTON TO "RUN AGAIN."

TO THE HONORABLE MAYOR:—

When you took up the reins of government for the City of Paris, the city was overdrawn at the banks several thousand dollars. At the end of the first year of your administration there was a surplus of several thousand dollars to the city's credit, and every year since then you have seen to it that the city has had a healthy cash balance to its credit.

These results were accomplished notwithstanding the fact that the city had lost the revenue from the saloons and that great expense had been incurred in repaving Main Street and a great amount of new sewers had been laid, new streets built and the old ones kept in the best repair in the history of the city, a new auto fire truck purchased, and an electric drill placed in the city quarry, and, in fact, every "before the election promise" kept.

We have implicit faith in your conservatism and believe you are the man of all our citizens most suitably fitted to be in charge of the city's affairs.

We appreciate the fact that you have secured for Paris a gas rate that can be no higher than our surrounding towns and have had the water rates brought to a lower price than almost any town in Kentucky of Paris' size.

We do not believe you will plunge or attempt to plunge Paris head over heels into debt by rushing into a purchase of light and water plants, as Paris already has a bonded debt of \$50,000.00, reduced from \$100,000.00, and some of which has been liquidated every year.

Other towns the size of Paris have tried this debt business to their sorrow. The property owners have these things to pay for and as you are one of our largest property owners we believe you will move in these matters with rare good judgement and very cautiously.

In other words, we realize that the city's interest and yours are identical, and inasmuch as you have always managed your affairs in such an admirable manner we are persuaded you will so continue to manage the city's.

For these reasons you should stand for the Democratic nomination for Mayor. Your consent to do this would, as it always has, be equivalent to your election.

We trust you will permit your name to be used in this connection and thus stop the joking that is being indulged in as regards this most important office, an office that demands a man of proven ability and experience.

By agreeing to grant our request you will be doing a valuable public service and delighting

SALE OF CANDY ON SUNDAY VIOLATION OF LAW.

Selling candy on Sunday is a violation of the statute prohibiting work on Sunday. The Court of Appeals, Tuesday, decided that candy is not a necessity within the meaning of the statute, and upheld the fine of \$50 imposed on Gilbert McAfee, of Salvisa, a storekeeper, in the Mercer Circuit Court for selling James Kennedy five cents' worth of candy on Sunday. The Court was asked to lay down a rule concerning the conduct of business on Sunday and to name the exceptions that might arise, but the Court declined to do this, stating that it would be better to deal with each case as it arose.

EDITORIAL MUSINGS.

Be Kind to Animals Week.

Every week should be a "Be Kind to Animals Week." But as most people are not keenly observant of the kind of treatment given animals, the American Humane Association is trying to concentrate attention on the subject of human treatment to animals.

The great majority of people are sympathetic with dumb life, only they never stop to think what kind of treatment dumb life gets. They look with disapproval at the tradesman's boy beating his employer's horse. But they never occurs to them to complain to the police. In most cases a word to the owner of the animal would prove sufficient correction.

Pet animals usually get good care. They are kept by people who enjoy them and take pleasure in their comfort and happiness. But many working animals are kept by persons who naturally are not sympathetic with

their condition. The cheerful whinny of Old Dobbin as they shoved hay down the manger, conveys no friendly message to them. If they can keep him quiet with a half measure of hay or woody old straw, they gladly do it to save money.

But it never any economy. A working animal labors at a profit only when he feels well. A shortage of fodder, and he is languid and spiritless. It is a pitiful sight to see some specimens of horseflesh that are driven about the streets.

Most people walk down the business sections of a town where horses are tied here and there, and never give a thought to the conditions under which they are left. On hot days many owners never stop to think about seeking shade for the patient beast. They are just as likely to tie him on the sunny side. If insects are abundant, they never think to throw a net or a duster over him. Prosecutions are not often necessary. People are mostly thoughtless, and need only to have their attention called to conditions that produce discomfort in the speechless and toiling world of animal life.

The Care of Old Animals.

An interesting news dispatch the past week reports the death of a noted racing horse familiar to all devotees of the turf. She breathed her last at the estate of a Kentucky breeder, who bought the horse several years ago to pension her.

There is so much thoughtlessness in the care of aged animals, that it is pleasant to see this notice of consideration. Too many faithful beasts of every-day life are pushed ahead until they drop. No halo of the race track follows their heads.

There are all extremes of sentiment in this matter. Some people are so sensitive that they will not take the life of an aged horse or dog, even where the animal has passed any enjoyment of existence. They feel keenly the individuality of animals, and putting them out of the way with chloroform seems almost like taking the life of a child. This over sensitivity to animal life is rare.

The faithful horse who has drawn a family's burdens for a lifetime should be something more than a mere drudge. If he has been treated with kindness, he makes known his affection for his masters, and welcomes their approach with the cheerful neigh.

He has contributed his share to the household labors, in return for a meager wage of hay and grain. He has toiled through heat and cold and storm and has got no satisfaction out of life beyond the bare pleasure of good digestion. It seems one of the anomalies of existence, that so much can be given so willingly and faithfully for so small a return.

He ought to have something coming to him in his twilight, by way of rest, some free seasons in a good grassy pasture where he can kick up his heels and enjoy sleep and food, untroubled by heavy loads, chafing harness, and the toil of the road. The pensioned horses should not include merely famous racers and family pets.

"CASCARETS" BEST IF HEADACHY, BILIOUS, SICK, CONSTIPATED

Best For Liver and Bowels, Bad Breath, Bad Colds, Sour Stomach.

Get a 10-cent box.

Sick headache, biliousness, coated tongue, head and nose clogged up with a cold—always trace this to torpid liver; delayed, fermenting food in the bowels or sour, gassy stomach.

Poisonous matter clogged in the intestines, instead of being cast out of the system is re-absorbed into the blood. When the poison reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache.

Cascarets immediately cleanse the stomach, remove the sour, undigested food and foul gases, take the excess bile from the liver and carry out all the constipated waste matter and poisons in the bowels.

A Cascaret to-night will surely straighten you out by morning. They work while you sleep—a 10-cent box from your druggist means your head clear, stomach sweet, breath right, complexion rosy and your liver and bowels regular for months. (adv)

HERE'S TIP ABOUT HOTEL GUESTS

In the January American Magazine a writer says:

"Here's a funny thing, by the way, that I've noticed about hotel guests: You have a soiled towel in a room, and the guest will probably complain. But you can have a bucket of paint and a paper-hanger's scaffold in the hallway, and compel the guests to crawl under a stepladder to get to his room, and he will put up with it cheerfully—because he knows you are painting or papering by way of making an improvement, and he is in sympathy with that. It doesn't cost much to make over a carpet so that a bare spot in front of the dresser will be eliminated, but such little details are a vast help in making a hotel prosper."

POTATO QUARANTINE AMENDED

Hereafter shipments of potatoes from the Dominion of Canada certified by the shippers to be as sound as is commercially practicable and to contain no more than 10 per cent of tubers showing traces of disease will be admitted at any port of entry of the United States, instead of at certain designated ports only, as in the past. The shipments, if accompanied by certificates of soundness as provided, will not be held by collectors of customs for inspection, except on special notification from the Federal Horticultural Board. An order amending the rules and regulations of the potato quarantine to this effect has just been issued by the Secretary of Agriculture.

Under the amended regulations the importer must apply to the Federal Horticultural Board for a permit for importation of potatoes as at present, designating the desired port of entry. The foreign shipper must enter the number of such permit on his certificate of soundness. The Federal Horticultural Board has prepared and will send to all applicants for permits forms for shippers' certificates of soundness.

The pasturing of corn is especially applicable to semiarid regions. The dry soil is not injured by the animals, and very little corn goes to waste or spoils by coming in contact with the soil. The stalks are left in good shape to prevent the drifting of snow.

And You Find "Sovereign" King Of Them All

Well, way back in 1901, after I had been in this bright, happy world for several days, I began to get worried like. I didn't have any name.

Folks were calling me "it" and "the new one" and "whatdya-call-it." I didn't like it a bit. Then one day I heard the Big Chief telephoning all his department heads to meet in his office.

Pretty soon they all came filing in. Tall chaps, short chaps, fat chaps and skinny chaps. "Now that he is here," said the Big Chief, "what will you name him?"

My! how they wrangled and wrangled

and wrangled. You know, you have heard them argue whether He'd be called Jack or John or Jim before. Finally, one fellow spoke up and said:

"Why not call him 'SOVEREIGN'? His mother was a Virginian, his father an aristocrat of the Carolinas. He comes from the very best stock. He comes from the very sweetest, ripest, mellowest Virginia and Carolina tobacco. He is being raised right in one of the cleanest, whitest, healthiest homes on earth. He is a Southerner born, a Southerner bred, a Southern gentleman—the king of them all—a real SOVEREIGN.

The Folks of the South KNOW good blood.
The Folks of the South KNOW good tobacco.

SOVEREIGN—the best—is none too good a name." So I was named, friend, for I want you as one of my friends, and it means a whole heap when I say—

I am guaranteed by *The American Tobacco Co.* —Buy me. If you don't like me return me to your dealer and get your money back. I have said it. A Southern gentleman is known the world over for keeping his word, and I have given you mine.

DEMAND PROMPTER PAY.

A movement is on foot among the merchants of Winchester to establish a thirty-day credit system, and a great number of the business men are lending support to the plan. The six months' credit system works a hardship on the merchants, who are compelled to meet their own bills with the whole sale houses in a much shorter time.

BAD COLD QUICKLY BROKEN UP.

Mrs. Martha Wilcox, Gowanda, N. Y., writes: "I first used Chamberlain's Cough remedy about eight years ago. At that time I had a hard cold and coughed most of the time. It proved to be just what I needed. It broke up the cold in a few days, and the cough entirely disappeared. I have told many of my friends of the good I received through using this medicine, and all who have used it speak of it in the highest terms." Obtainable everywhere. (adv-jan)

GATHER GAME BY HAND NEAR IRVINE, KY.

The high cost of meat has not been on a large number of resourceful sportsmen who took advantage of the high waters of the Kentucky River and tributary creeks near Irvine. The backwaters in the lowlands forced rabbits and quail to small areas of dry space, enabling the hunters to gather the game by hand.

It is reported that more than 2,000 rabbits and several hundred quail were caught in the dry spots.

THIS IS CERTAIN.

The Proof That Paris Readers Cannot Deny.

What could furnish stronger evidence of the efficiency of any remedy than the test of time? Thousands of people testify that Doan's Kidney Pills have brought lasting results.

Home endorsement should prove undoubtedly the merit of this remedy. Years ago your friends and neighbors testified to the relief they had derived from the use of Doan's Kidney Pills. They now confirm their testimonials. They say time has completed the test. Geo. McCandles, Second street, Paris, says: "My kidneys were inactive and I had backaches. Doan's Kidney Pills put a stop to all the trouble. They gave me complete relief." (Statement given January 17, 1912.)

NO TROUBLE SINCE.

Over four years later, on November 9, 1916, Mr. McCandles added: "I have not had any need of a kidney remedy since I last endorsed Doan's Kidney Pills. I consider myself permanently cured."

Price 50 cents at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. McCandles has twice publicly recommended. Foster-Milburn Co., Props., Buffalo, N. Y. (adv)

BASKET BALL, PARIS VS. GEORGETOWN TO-MORROW

There will be a basket ball game here between Georgetown College and the local Y. M. C. A. team to-morrow night at 8 o'clock. It is hoped that a good crowd will be present to urge the Paris boys to victory. In the earlier part of the season a very decided defeat was received at the hands of Coach Robt. Hinton's "Tigers" on the Georgetown floor; but that's another story. Will you be one to help confirm this fact by making your presence "felt" in the "Y" Gym? Win or lose, it will be a game worth seeing and one of the best on the local floor this season.

Regardless of former records, Paris has not always had a team that could make even a creditable showing against Kentucky's strongest teams. Those in charge, as well as other friends of the organization, and loyal Parisians, are hoping to secure another point of respect in the eyes of the real teams of the State. We're aiming high; but we hope not rash. Can we not base this statement partly on the State University game?

TWO ADJUDGED INSANE.

Mrs. Horatio N. Wilkins, well-known and highly-respected Paris woman, was tried in Judge McMillan's Court, on a lunacy charge. The jury adjudged her to be of unsound mind, and ordered her committed to the Eastern Kentucky Hospital for the Insane at Lexington.

Mrs. Wilkins is the widow of Horatio N. Wilkins, who will be remembered by the older citizens of Paris as conducting a tin shop and stove store at the corner of Main and Fifth streets, on the site now occupied by the Bourbon-Agricultural Bank & Trust Co.'s building. She was twice married, her children, Charles Ross and Horatio ("Birdie") Wilkins, having died some years ago.

On the same day, a nineteen-year-old colored girl was adjudged insane and was ordered sent to the State Hospital. The two unfortunates were taken to the institution together.

REAL ESTATE TRANSACTIONS

Mr. John W. Bell, of Harrison county, purchased through Harris & Speakes, of Paris, the Lloyd Ashurst farm of 244 acres, located on the Paris and Bethlehem pike, near Paris, for \$127.50 an acre, or a total of \$31,110. The farm contains one of the most substantial farm dwellings in the county, and is well improved in every respect. Mr. Bell will move to his new home when possession is given next March, and will become a resident of the county.

Mr. Thos. F. Brannon, of Lexington, through the Paris Realty Co., of this city, sold a one-story frame cottage on Clifton avenue in the old Fair Grounds Addition to Paris, to Mrs. Welsh, of Second street, for \$2,100. Mrs. Welsh will occupy the property as a home.

Mr. Charles Darnell, of Carlisle, has purchased of Mr. Perry Bronaugh, his farm near Hutchison. Mr. Bronaugh recently purchased 200 acres of land near Nicholasville, and will move to that place in March.

Prof. J. M. Scott sold his farm of 240 acres, located on the Jacksonville pike, between Jacksonville and Shavano, yesterday, to Mr. J. L. Perant. The farm, which is one of the best in the county, is well improved, and nicely located. The price paid was not made public, but is understood to have been a good one. Mr. Perant recently sold his farm on the Bethlehem pike. He will get possession of the Scott farm in March.

SPANISH.

The study of Spanish is becoming increasingly popular in our secondary schools and colleges. Where one student now is interested in the unpopular Greek, a hundred are seeking a knowledge of Spanish. This is well; our business future, especially after the war sets loose English, French and German commercial agents to recover lost connections, lies in Spanish-speaking Latin America—and it will be a period of the keenest competition. The more people in this country who know something of Spanish the better our chances for commercial conquest—and the seeds of a vast and new prosperity may easily be sprouted to the south of us.

FARM CONDITIONS IN BOURBON.

The past week, while not an especially good one for the farmer, proved to be beneficial to the tobacco interests, enabling the growers to get their crops to the local market in good shape. Most of the offerings was of a very fair quality, and the prices realized were entirely satisfactory, as evidenced by the fact that there were no rejections.

The local houses, the Bourbon (Consolidated) and the New Independent, each held five sales, disposing of an aggregate of 967,505 pounds of tobacco, for a total of \$168,532.65, an average of \$17.42. Speculators have been going through the county, trying to buy up the crops, but the growers seem to prefer taking their chances on the local open markets.

Hemp breaking has begun, and a few crops have been sold at good prices, but others are holding the staple back for an advance. It is not likely that the hemp in this county will sell at the 1916 price, which was \$16 per hundred, but the growers believe that it will reach as high as \$15.00.

Eggs are still climbing heavenward, selling at some places for fifty cents per dozen. The rise has been steady for a month or more and the poultry men in many places are holding the eggs for another rise.

The livestock markets continue to report light sales. The mule market seems to be fairly active, and cattle buyers are quietly procuring stock for feeders. This section is constantly shipping to the Cincinnati markets.

Stock feeding fell off during the week on account of the mild weather which makes it possible for the animals to make use of the pastures to a large extent. Unless the weather becomes decidedly more severe than it has been thus far cheap and profitable gains will be the rule this winter.

A WALKING SALOON.

Chief of Police Link last night arrested "Bill" Smith, a habitual criminal of Cynthiana. Smith is wanted in Harrison on various charges, he having broken jail at that place on several occasions. When arrested Smith was on his way to Carlisle and had on him 20 quarts of whiskey and other "wet" goods.

ARM BADLY SPRAINED.

Mrs. Wm. Myall fell on the icy pavement in front of the court house yesterday afternoon and received a badly sprained right arm from the fall. She was removed to her home where Dr. Williams attended her.

COL. W. F. CODY.

Col. W. F. Cody, known the world over as "Buffalo Bill," noted frontiersman, trapper, scout, guide and showman, died at the home of his sister, Mrs. Mary Cody Decker, in Denver, Colorado, where he had been seriously ill for several weeks from uraemic poisoning.

Col. Cody was born Feb. 26, 1843, in Scott county, Iowa. He was a descendant of an old Scotch family. When "Buffalo Bill" was five years old his parents moved to Leavenworth, Kansas. At the age of ten he found himself at the head of the family, due to the death of his father, who was killed in an encounter growing out of a dispute over the slave question. Young Cody became a courier, then by various stages of progression became guide, scout, trapper and soldier, making himself one of the most picturesque figures in America. He met death as he met life, squarely and without flinching. The most romantic figure left over from the days of thrilling Indian fights and clashes with white renegades—a figure at once the despair and envy of every red-blooded boy in America—a remnant of the organization that once roamed the plains of the West—disappeared with the death of "Buffalo Bill."

The body will lie in state in the State Capitol at Denver until Sunday when the funeral services and interment will take place.

NO RUBBER IN THESE TIRES.

Several substitutes for rubber are being used in Germany in the manufacture of bicycle and light automobile tires. Steel wire, leather, wood and prepared canvas have been resorted to.

The steel wire tire was the first to appear. It is three-sixteenths of an inch thick and made up into a very close coil, and two ends being welded to give it the proper shape. Its greatest fault is that it cuts the pavement and is noisy.

Some wooden tires are made of a single piece of wood and others are sectional. One is composed of 17 parts. The single piece of wood is covered with a strip of leather, and between the under surface and the rim are several steel springs which give elasticity. In addition, on bicycles, springs are attached to the front and rear forks.

The canvas tires are filled with wood and other substances.

MINIATURE SHIPS FOR NAVAL TRAINING.

The naval militia of New York State has eight miniature battleships to train officers and recruits in the management of naval equipment. They are also shown in the recruiting offices as a means of attracting men. One of them has been in use for three weeks in connection with offices in New York City. Each ship is mounted on a motor truck and is 26 feet long by 5 feet wide. Its turrets stand 8 feet above the deck, and are modelled after the U. S. S. Connecticut. Men concealed in the interior operate the motors and also the signal system, including the searchlights, with which the vessel is as fully equipped as a boat designed for actual service.

MATRIMONIAL.

TEVIS—FAULCONER.

The marriage of Miss Eleanor Tevis and Mr. E. P. Faulconer, Wednesday was one of the brilliant social events of the New Year at Danville. The bride is a handsome and attractive young woman who has frequently been a guest of Paris friends. Miss Marie Talbot, of Paris, attended the wedding.

SCHWARTZ—McLAUGHLIN.

That romance is not dead and that love will find the way eventually was demonstrated in this city Wednesday morning when Miss Nellie Schwartz, of Paris, became the bride of Mr. Thos. McLaughlin, of Lexington, and a former resident of Paris. Mr. McLaughlin and Miss Schwartz had been lovers for many years and their marriage was the culmination of an acquaintance that began in their childhood in Paris.

The marriage took place at the residence of the officiating minister, Rev. Father Eugene DeBruyn, pastor of the Church of the Annunciation in this city, in the presence of a few intimate friends and relatives of the bride and groom. After the ceremony the happy couple left for a short wedding journey to New Orleans and the South, and upon their return will make their home in Paris temporarily, but plan to purchase a permanent home in Lexington, where they will reside in the future.

The bride is the adopted daughter of the late Mr. and Mrs. Jacob Schwartz, of Paris, in whose home she has spent the larger part of her life. She is a young woman of personal attractiveness and of unusual accomplishments. She was reared as tenderly as Mr. and Mrs. Schwartz could have raised one of their own children, and she lovingly repaid all their love and tender care by a lifetime of devotion.

Mr. McLaughlin is a son of Mrs. Margaret McLaughlin, of Lexington, who was a native of Paris, and is a cousin of Murray, James and William Higgins, of this city. Mrs. McLaughlin being a sister of Mrs. Thomas A. Higgins. He has been Deputy Sheriff of Fayette county for the past three years and for six years previous was in the office of the City Treasurer of Lexington under several administrations. He enjoys a deserved popularity among a wide circle of friends and is a gentleman of many admirable qualities.

PENITENTIARY FIRE CAUSES LOSS OF TWO LIVES

FRANKFORT, KY., Jan. 11.—Two dead and forty-five injured, overcome with heat or prostrated by the shock, in the prison hospital, are the toll of a fire, (originating from defective electric wiring,) which gutted Cell House A, the colored section of the Reformatory, Monday night. All are negroes. The dead are Dave Fife, of Lexington, and Bill Jones, of Owingsville, the latter a life term and a trusty at the shoe factory. Will Jones, of Winchester, is in a serious condition. Both his legs are horribly burned. Physicians believe the others will recover.

The men were rescued from the cell house after they had spent over an hour in the roasting heat and deadly smoke, locked in their cells with the flames licking down at them and creeping toward them in plain sight, the horror of their position accentuated by crashing timbers from the roof and walls around the cells, which are piled tier on tier, four around the center of the long narrow building.

They were gotten out at the risk of the lives of fellow prisoners and guards, who were compelled to dig a hole through the wall at the rear of the annex, extending out from the cell house, and use ladders and ropes to reach the imprisoned men and let them down, after climbing along planks pushed before them on the girders.

Many of them were taken out unconscious and restored by Coroner LeCompte's lungmotor in the hospital, where Frankfort physicians assisted Dr. Caywood, the prison physician, in attending the rescued men as fast as they could be taken in.

All the other 750 prisoners in that cell house were let out in safety, but the fire and smoke drove back the guards and prisoners who were assisting them in unlocking the cells before Walks 11 and 12, the upper tiers, were reached, and nothing could be done for their relief until the fire was under control.

There are 1,478 prisoners in the Frankfort prison and about 800 were in Cell House A.

A HOLD-UP.

The Lawrenceburg News says, regarding the newsprint situation: "The News is of 'the same opinion still' that the high cost of print paper, paid by the country plants, is a straight-out hold up. When or how the little fellows expect to get relief is still an unsolved problem. The conscienceless struggle after the 'almighty dollar' is a wonderful incentive to boost high prices and then lay it at the threshold of the European war."

SHOOTING CASE CONTINUED

In the Police Court at Lexington, Wednesday, the case of Oakley Hilton, of Paris, charged with the malicious shooting and wounding of Cleveland Smith, in Lexington, some time ago, was continued until this morning. Hilton became involved in an altercation with Smith over a crap game in a Lexington hotel, and in the struggle for possession of a revolver Smith was shot in the side. Hilton was arrested charged with the shooting.

CARD FROM HOTEL WINDSOR.

I desire to thank the people of Paris and Bourbon county for their liberal patronage in the past and to ask for a continuance of the same for the coming year. I am especially indebted to the merchants, who, by their influence with the traveling public have contributed largely to the success of the Windsor. A hotel cannot be maintained without the support of the home people and I value their friendship and co-operation accordingly.

In this connection I beg to say that Mrs. Carl Crawford has charge of the culinary department, and that her services are at all times available in preparing special menus for entertainments.

Thanking you again for your favors, I remain,

For the benefit of our foreign subscribers, former Parisians who the temporarily sojourning in Florida and other Southern climes, basking in the sunlight and warmth, it may be comforting to them to know they are escaping the rigors and stress of the most changeable climate on earth.

Following a period of clear, bright weather, a storm of snow, sleet and ice, accompanied by squalls of ice cold wind descended on this section Tuesday night, and sent pedestrians scurrying indoors for material comfort and protection. The mercury descended rapidly in the tube and by Wednesday morning had reached the low mark of 15 degrees above zero. The visitation came with such suddenness as to catch many farmers unprepared to shelter their stock. The usual troubles calling for the plumber happened in numerous Paris households.

Charged with cruelty to animals in maiming a cow, Bill Lemons, a well-known Cynthia character, was arrested in Paris, Wednesday, and returned to Cynthia by officers from that city.

Lemons was given a hearing before County Judge Collier and held over in \$50 bonds to answer to the grand jury at the next term of the Harrison Circuit Court.

EXTREMES MEET IN WEDDING AND FUNERAL.

From gay to grave, a happy wedding party to a saddened group of mourners following the corpse of a loved one, occurred at the church of the Annunciation, in this city, Wednesday morning.

The wedding of Miss Nellie Schwartz, of Paris, and Mr. Thomas McLaughlin, of Lexington, and the funeral of Mrs. Edward Grace, of Covington, followed each other in a period of ten minutes, furnishing the setting for extremes that rarely meet in so short a space of time. The wedding preceded the funeral by a few moments only and the same train that brought the corpse and the funeral party to Paris carried the happy bridegroom and bride away on their Southern honeymoon trip.

CUTS HIGH COST OF POOR HEALTH

Business Man Finds Way to Increase Efficiency.

The over-head cost of being half-sick is a financial factor being seriously considered by business-men all over the country.

Efficiency is the road which leads to the goal for which every business-man is striving and A. L. Van Dyke, 275 Arcade building, Dayton, says he has found the way to health efficiency at least. Tanlac, he says, keeps him in proper trim to meet the exacting demands of his real estate business.

Mr. Van Dyke said:

"It's hard to be on the job every day when a man wakes up in the morning without 'pep' or ambition. That's the way I felt."

"The trouble was my food wouldn't digest. It formed gas, caused belching and bloating. I lost my appetite and it began to look as though I would have to give up business and take a trip for my health."

"Just about that time a friend recommended Tanlac to me. It helped me almost from the start. My appetite came back. I was bothered less and less by gas. I began to feel like a real healthy human being."

"I've gained fifteen pounds. And I've gained in business efficiency. That's why I'm eager to say a good word for Tanlac. If anyone wants to know more of my story I am at 275 Arcade building, Dayton. I will tell anyone just what this new tonic has done for me and what they may expect from it themselves."

Tanlac, the master medicine and reconstructive tonic, is sold exclusively in PARIS by Varden & Son. Other exclusive agents in nearby towns are as follows:

HUTCHISON Snell & Wood; MILLERSBURG, W. G. Wadell; ELIZABETH, Oscar Smith; CARLISLE, Tureman & Son; GEORGETOWN, C. H. Arnold; WINCHESTER, Duty Drug Company; AUSTERLITZ, B. S. Parrish. (adv)

WINCHESTER BOY BRAVES
WEATHER IN BARE FEET.

Richard Davis, 8-year-old son of Mr. and Mrs. T. W. Davis, attracts much attention in Winchester because of the fact that in even the bitterest cold weather he goes barefooted to school. In fact, he never wears shoes at all, and when his mother purchased a pair for him this week he discarded them as soon as he was out of sight of his home, and threw them in a sewer.

The family moved to Winchester from Wilmington, N. C., last July. No reason is given for the child's dislike of footwear. He attracted quite a crowd during the recent snows by selecting the deepest snow for a foot-path. The other children, it is said, will not sleep with him, because he will have only the lightest covering. The boy says that he has never felt the sensation of cold.

A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is immediate and amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable lustre, softness and luxuriance, the beauty and shimmer of true hair health.

Get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter, and prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment. A 25-cent bottle will double the beauty of your hair. (adv)

STATE EDUCATORS TO PRY INTO BILL

One of the questions with which County Superintendents will have to deal at the approaching meeting of their association in Frankfort is the method of co-operation between the State and Federal Government under the Smith-Hughes act for promotion of vocational education. Under this act the Federal Government proposes to appropriate large sums for agricultural and industrial trade training in the public schools upon condition that the State appropriate an equal amount.

State Supt. V. O. Gilbert is sending out circulars to the County Superintendents, containing a digest of the measure, and they will propose to the General Assembly a plan whereby the State may take advantage of the offer.

For the first year the Government would appropriate \$1,700,000, increasing it annually until the total is \$7,000,000, in 1923-24. Of this sum the first year a half-million each would go for agricultural training, trades and industrial training and training of vocational teachers, and \$200,000 for administration and investigation by the Federal Board.

JIM ALLEN, HE SAYS:

In the ever-witty and pithy "Pet and Pertinent" column in the Cynthiana Democrat, Editor Jim Allen says: "Luke McLuke tries to poke fun at Paris, Ky., girls because a firm in that city carried a holiday advertisement. 'Put furniture in her stocking.' Just as if pokers are not part of a house's furnishings!"

PAPERS CONSOLIDATE

On account of the high cost of paper, the Bowling Green Messenger, one of the best papers in that city, will be discontinued. It was purchased by Hon. John B. Gaines, owner of the Bowling Green News. The News will be continued. The Messenger was edited by Edward Leigh, secretary to J. C. W. Beckham when he was Governor.

POOL TOURNAMENT.

A pool tournament for 100 ball straight pool, will begin Monday night at the pool room of N. A. Moore & Co. all players being eligible. The one making the largest percentage in the tournament will be presented with a handsomely engraved silver, gold-lined loving cup, which is now on exhibition at the Moore pool room. Some of the "crack shots" of the city have declared their intention of entering the contest, and interesting games are expected.

HIGHEST COURT DECIDES ANTI-LIQUOR LAW VALID.

WASHINGTON, Jan. 11.—In the most sweeping of all decisions upholding prohibition laws, the Supreme Court Monday held constitutional and valid the Webb-Kenyon law prohibiting shipments of liquor from "wet" to "dry" States. The court also sustained West Virginia's recent amendment to her law prohibiting importation in interstate commerce for personal use.

After being vetoed by President Taft, who held it unconstitutional, the Webb-Kenyon act was repassed over his veto and the law Monday was sustained in the Supreme Court by a vote of seven to two. Leaders of the prohibition movement regard the law as second in importance only to the proposed constitutional amendment.

Lawyers for the liquor interest, who heard the decision, admit that it upholds and applies the law "in its full sense."

It was announced that Justice McReynolds concurred in the decision, but not completely in the opinion.

Justices Holmes and Vandeventer were the two dissenting justices. "The all-reaching power of Government over liquor is settled," said the Chief Justice in announcing the decision. "There was no intention of Congress to forbid individual use of liquor. The purpose of this act was to cut out by the roots the practice of permitting violation of State liquor laws. We can have no doubt that Congress has complete authority to prevent paralyzing of State authorities. Congress exerted a power to co-ordinate the National with the State authority."

Wayne B. Wheeler, counsel for the Anti-Saloon League of America, who with Fred Blue, State Prohibition Commissioner of West Virginia, argued the case before the Court made this statement on the Court's decision: "The States may now prohibit the possession, receipt, sale and use of intoxicating liquor and not be hampered by the agencies of interstate commerce."

The Federal Webb-Kenyon act of March 1, 1913, and West Virginia's prohibition laws, were brought before the Supreme Court in two test cases of the James Clark Distilling Company, of Cumberland, Md., against the American Express Company, and Western Maryland railroad. Whether prohibition States under the Webb-Kenyon law or otherwise may prohibit shipment of intoxicating liquors, in interstate commerce, for personal use or citizens in "dry" territory was the principal question raised.

TOBACCO EXPORTERS FIND MARKET IN WEST AFRICA.

United States Consul W. J. Yerby, reporting to the Department of Foreign Commerce, Washington, D. C., from Dakar, states that the greater part of the tobacco imported into that territory is in the natural leaf form. Although statistics as to its source are not available, it appears that at least 95 per cent. of it originates in the United States. In 1915 imports of leaf tobacco into the French colonies amounted to \$381,614 in value, against \$529,369 in 1914. Imports into the British colonies totaled in value \$2,126,515, against \$1,372,177 in 1914.

Practically all of the manufactured tobacco imported is of cigarettes, hermetically sealed in tins. The natives take readily to the cigarette, and their preference for them to the leaf and pipe is growing rapidly, it is said.

The only representative of American tobacco in West Africa is at Dakar, where a large American exporting company has a branch in which from 30 to 40 natives are regularly engaged in "retreating" the tobacco consigned in Senegal. The market seems to be present still further opportunity for American exporters of leaf tobacco.

PRICES OF TURKISH CIGARETTES ADVANCED.

Advances in the prices of Turkish cigarettes ranging from 45 cents to \$1 a thousand were announced Tuesday by P. Lorillard & Company, one of the largest tobacco manufacturers in the country. The increase in cost of paper and other expenses was given as the reason. The higher wholesale prices are said to foreshadow corresponding advances in the retail trade.
